

Social Responsibility

Our core focus may be on delivering peace of mind to our clients, to conclude deals, seek out new opportunities and expand their businesses, but we also embrace the responsibility placed on us to engage with those affected by their activities.

We have a role to play in helping to modernise legislation and regulation. We help to debate, shape and lead legislative change, for the benefit of our clients, Governments and Angola as a whole. We believe it's good for business. And good business is good for everyone.

We work with local communities and non-governmental organisations (NGOs) within Angola and elsewhere to help them achieve their goals and to benefit the wider society.

To maximise our efforts we place an emphasis on issues relating to access to justice, education and corporate responsibility.

To find out more about our work and how we may be able to help you achieve your goals please contact luanda@fatimafreitas.com
