

About Us | Technology

We live and work in a world that exponentially resorts to and relies on technology. Our clients can reach us whenever and however they want, 24 hours a day, seven days a week, by mobile, email, fax or video conference.

The technologies we use increasingly help shape and add value to the provision of legal services. And in a country as rapidly-developing and as large as Angola we believe our investment in technology makes us a better, more responsive law firm.

No matter where in Angola or around the world our clients are located, or in which time zone they operate, we are always in reach, online and available.
